## INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference <b>HF/2-22049/A</b>	<b>FOR FURTHER ACTION</b> see Notification of Transmittal of International Search Report (Form PCT/ISA/220) as well as, where applicable, item 5 below.	
International application No. <b>PCT/EP 00/ 06420</b>	International filing date (day/month/year) <b>06/07/2000</b>	(Earliest) Priority Date (day/month/year) <b>14/07/1999</b>
Applicant  <b>CIBA SPECIALTY CHEMICALS HOLDING INC.</b>		

This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This International Search Report consists of a total of 4 sheets.

☒ It is also accompanied by a copy of each prior art document cited in this report.

### 1. Basis of the report

a. With regard to the **language**, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

b. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international search was carried out on the basis of the sequence listing :

☐ contained in the international application in written form.

☐ filed together with the international application in computer readable form.

☐ furnished subsequently to this Authority in written form.

☐ furnished subsequently to this Authority in computer readable form.

☐ the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

☐ the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished

2. ☐ **Certain claims were found unsearchable** (See Box I).

3. ☐ **Unity of Invention is lacking** (see Box II).

4. With regard to the **title**,

☒ the text is approved as submitted by the applicant.

☐ the text has been established by this Authority to read as follows:

5. With regard to the **abstract**,

☒ the text is approved as submitted by the applicant.

☐ the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. The figure of the **drawings** to be published with the abstract is Figure No. \_\_\_\_\_

☐ as suggested by the applicant.

☐ because the applicant failed to suggest a figure.

☐ because this figure better characterizes the invention.

☐ None of the figures.

# INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No. PCT/EP00/06420

## I. Basis of the report

1. With regard to the **elements** of the international application (*Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)*):

**Description, pages:**

1-28 as originally filed

**Claims, No.:**

1-21 as originally filed

2. With regard to the **language**, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language: , which is:

- ☐ the language of a translation furnished for the purposes of the international search (under Rule 23.1(b)).
- ☐ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of a translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3).

3. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. The amendments have resulted in the cancellation of:

- ☐ the description, pages:
- ☐ the claims, Nos.:
- ☐ the drawings, sheets:

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed (Rule 70.2(c)):

**Re Item V**

**Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**

**2. Novelty (Article 33(2) PCT)**

2.1 **D1** discloses, under the form of a generic formula, ligands which appear to be the same compounds as the ones of the present application (claim 9). It also discloses a bleaching detergent composition comprising hydrogen peroxide, non ionic surfactants and said ligands.

Hence, on the basis of the Japanese abstract, **D1** would appear to detract from the novelty of claim 9 of the present application. Moreover, said document may additionally disclose some metal complexes prepared from said ligands and may therefore be relevant when considering the novelty of claims 12, 18 and 19. For the purpose of checking the potential existence of this information, the applicant is requested to provide a full translation of the Japanese document **D1**.

2.2 **D2** discloses (abstract) the tripodal tris(2-(salicylideneamino)ethyl)amine ligands and their manganese(III) complexes.

2.3 **D3, D4, D5** and **D6** disclose the synthesis of tris (salicylideneamino)ethyl)amine (H3saltren) and derivatives thereof such as H3-5-Cl-saltren. **D6** additionally discloses (abstract) the Fe (III) complexes of H3-3,5-Cl-saltren.

Documents **D2, D3, D4, D5** and **D6** would therefore appear to detract from the novelty of claims 9 and 8 of the present application.

**3. Inventive step (Article 33(3) PCT)**

3.1 In view of the documents **D7, D8, D9** and **D10** cited in the international search report,

the metal complexes claimed in the present application can be considered as alternative compounds since they have a similar chemical structure. Therefore, the man skilled in the art would expect a similar behaviour for said complexes and consequently similar properties.

For said reason, claims 1 to 4 and 7 do not satisfy the criterion set forth in Article 33(3) PCT.

3.2 Documents **D7** (examples 7 and 8, page 14) and **D9** (claim 15) disclose aqueous or non-aqueous detergent compositions comprising a bleach agent, a metal complex, surfactants and detergent builders. The present application differs therefrom in the nature of the metal complex. The applicant has not provided any comparative data showing an unexpected effect or an advantage.

Therefore, claims 12, 18 to 20 do not meet the requirement of article 33(3) PCT.

Moreover, and starting from a general knowledge on the properties of certain metal complexes on dirt and dyes in wash liquors, the man skilled in the art, would obviously try to use the metal complexes of the present applications for washing, cleaning and disinfecting applications.

Therefore, and in the absence of comparative data showing an unexpected effect or advantage, claims 5, 6, 13, 14, 16, 17 and 21 do not meet the requirement of Article 33(3) PCT.

3.3 **D10** discloses (abstract and column 1, lines 20 to 26) a process for inhibiting the re-absorption of migrating dyes in a wash liquor which is very similar to the one of claims 10 and 11 of the present application. The difference resides in the nature of the metal complex.

Since the applicant has not shown any comparative data showing an unexpected effect or advantage, an inventive step can not be recognized to the subject-matter of claims 10 and 11 (Article 33(3) PCT).

**INTERNATIONAL PRELIMINARY  
EXAMINATION REPORT - SEPARATE SHEET**

International application No. PCT/EP00/06420

**Re Item VIII**

**Certain observations on the international application**

4. For a purpose of clarity (Art. 6 PCT), the applicant has not adopted a more logical order for the set of claims of the present application ; that is to say, starting with the broadest claims and having grouped together all dependent claims referring back to a single previous claim.

## REMINDER REGARDING CHAPTER II (Article 31(2)(a) and Rule 54.2)

If the applicant wishes to postpone entry into the national phase until 30 months (or later in some Offices) from the priority date, a demand for international preliminary examination must be filed with the competent International Preliminary Examining Authority before the expiration of 19 months from the priority date.

It is the applicant's sole responsibility to monitor the 19-month time limit.

Note that only an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II has the right to file a demand for international preliminary examination.

## REMINDER REGARDING ENTRY INTO THE NATIONAL PHASE (Article 22 or 39(1))

If the applicant wishes to proceed with the international application in the national phase, he must, within 20 months or 30 months, or later in some Offices, perform the acts referred to therein before each designated or elected Office.

For further important information on the time limits and acts to be performed for entering the national phase, see the Annex to Form PCT/IB/301 (Notification of Receipt of Record Copy) and Volume II of the PCT Applicant's Guide.
